

I am shocked and extremely dissapointed that the DNC is going to change. Im sick and tired of telemarketers relentlessly calling with no regard to you or your privacy. Ive had a few of them call once or twice weekly, one DAILY for weeks. If you speak your mind, they hang up on you, some will crank call you back. Ever worse, you have NO way of finding out who they are, your powerless to do anything.

Who ever is in office if this change of the DNC list changes is loosing my vote.
